*Abstract:* This study collects survey data from principals of schools that received federal School Improvement Grants (SIGs) in cohort 1 and implemented the school transformation model. Rural schools and districts often face steep challenges when trying to implement the kinds of staff replacement and on-site professional development practices required in the transformation model. By examining the implementation of the SIG transformation model in challenging rural settings, the study will produce findings that can help policymakers, rural schools, and their partners plan for school improvement. Our study will do this in two ways: (1) By asking principals to specify the extent to which the transformation activities were implemented and the challenges to implementation, and (2) by identifying which activities were supported by technical assistance providers and how sufficient principals found this support.
